PREFACE

This index to *The Australian Book Review* issues 11-37 has been produced as part of the publications programme of the Footscray Institute of Technology library at the request of the Editor of *The Australian Book Review*, Mr. John McLaren.

The first index to *The Australian Book Review* indexes issues 1 to 10, and was published in issue 12, July 1979.

The publication of *The Australian Book Review* by the National Book Council has received universal approbation. We are pleased to have the opportunity to increase its usefulness through the production of this index. It is intended to produce annual indexes to complement it.

Alan Bundy
Chief Librarian
Footscray Institute of Technology

COMPILER'S NOTE:

Books reviewed are listed alphabetically in separate author and title sequences.

The author entry gives the name of the author(s) or principal author, if more than three; and the full title of the book. The reference is to the issue and page number, followed by the name of the reviewer. B.N. indicates Book Notes.

The title entry gives abbreviated title, except in the case of books without authors which are indexed in full; and the reference to the issue and the page where the book is reviewed. Series are included in the title sequence. There is a separate alphabetical index to reviewers with issue and page number.

Where an article was an overview without clear author and title details this is not indexed. Re-issues are generally not included. Periodicals are excluded.
